## Spectrum Brands Australia Pty Ltd and Spectrum Brands New Zealand Ltd Warranty Against Defects

In this warranty:

Australian Consumer Law means the Australian consumer law set out in Schedule 2 to the Competition and Consumer Act 2010;

CGA means the New Zealand Consumer Guarantees Act 1993;

Goods means the product or equipment which was accompanied by this warranty and purchased in Australia or New Zealand, as the case may be;

Manufacturer, We or us means:

1. for Goods purchased in Australia, Spectrum Brands Australia Pty Ltd ABN, 78 007 070 573;  
or
2. for Goods purchased in New Zealand, Spectrum Brands New Zealand Ltd, as the case may be,  
contact details as set out at the end of this warranty;

Supplier means the authorised distributor or retailer of the Goods that sold you the Goods in Australia or in New Zealand; and

You means you, the original end-user purchaser of the Goods.

1. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law, or the CGA. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.
2. The benefits provided by this Warranty are in addition to all other rights and remedies in respect of the Goods which the consumer has under either the Australian Consumer Law or the CGA. The original purchaser of the Goods is provided with the following Warranty subject to the Warranty Conditions:
3. We warrant the Goods for all parts defective in workmanship or materials from the date of purchase (Warranty Period), for the period of:-
  - (a) Two (2) years for Russell Hobbs products (see product packaging for details)
  - (b) Two (2) years with five (5) year motor warranty for Russell Hobbs products (see product packaging for details)
  - (c) Limited Lifetime, Ten (10) years for Russell Hobbs cookware.
  - (d) One (1) year for George Foreman, iRobot, Westinghouse, Black & Decker and Spectrum Brands products.

If the Goods prove defective within the Warranty Period by reason of improper workmanship or material, we may, at our own discretion, repair or replace the Goods without charge.

## Warranty Conditions

4. The Goods must be used in accordance with the manufacturer's instructions. This Warranty does not apply should the defect in or failure of the Goods be attributable to misuse, abuse, accident or non-observance of manufacturer's instructions on the part of the user. As far as the law permits, the manufacturer does not accept liability for any direct or consequential loss, damage or other expense caused by or arising out of any failure to use the Goods in accordance with the manufacturer's instructions.
5. Exhaustible components (such as batteries, filters and brushes) of the Goods are included under this Warranty only where there is a defect in workmanship or materials used.
6. The warranty granted under clause 3 is limited to repair or replacement only.
7. Any parts of the Goods replaced during repairs or any product replaced remain the property of the manufacturer. In the event of the Goods being replaced during the Warranty Period, the warranty on the replacement Goods will expire on the same date as for the Warranty Period on the original Goods which are replaced.
8. In order to claim under the warranty granted under clause 3 you must:
  - (a) Retain this warranty with your receipt/proof of purchase; and
  - (b) Return the Goods to us at the relevant address or to the Supplier by prepaid freight within the Warranty Period accompanied with (i) the legible and unmodified original proof of purchase, which clearly indicates the name and address of the Supplier, the date and place of purchase, the product name or other product serial number and (ii) this warranty.
9. This warranty is immediately void if:
  - (a) Any serial number or appliance plate is removed or defaced;
  - (b) The Goods have been serviced or otherwise repaired by a person not authorised to do so by us or where non approved replaced parts are used.
10. The Goods are designed for domestic use only. A limited 90-day Warranty applies to any industrial or commercial use of the Goods. The Goods must be connected to the electrical voltage requirements as specified in the ratings label located on the Goods.
11. This warranty does not cover the cost of claiming under the warranty or transport of the Goods to and from the Supplier or us.
12. This warranty is only valid and enforceable in Australia against Spectrum Brands Australia Pty Ltd and in New Zealand against Spectrum Brands New Zealand Ltd.

Contact us or the Supplier for further details.

### Register your product online

If you live in Australia please visit: [www.spectrumbrands.com.au/warranty](http://www.spectrumbrands.com.au/warranty)

If you live in New Zealand Please visit: [www.spectrumbrands.co.nz/warranty](http://www.spectrumbrands.co.nz/warranty)

Registration of your warranty is not compulsory, it gives us a record of your purchase AND entitles you to receive these benefits: Product information; Hints and tips; Recipes and news; Information on special price offers and promotions.

Any questions? Please contact Customer Service for advice.

Congratulations on the purchase of your Russell Hobbs appliance. Each unit is manufactured to ensure safety and reliability. Before using the appliance for the first time, please read the instruction booklet carefully and keep it for future reference. Pass it on if you pass on the appliance.

When using electrical appliances, basic safety precautions should always be followed.

BEFORE USING FOR THE FIRST TIME

Fill the water tank with clean water, and then empty the water to ensure the tank is clean of any manufacturing residues. Refill the tank.

- The iron may give off an odour and small amount of vapour when switched on for the first time. This is normal and will stop as the element cures.
- Press the  *burst of steam button* 3 or 4 times, to prime and flush clean water through the burst of steam pump.
- Press the  *cool spray mist button* 3 or 4 times, to prime and flush clean water through the cool spray mist pump.
- Iron an old piece of dampened cotton fabric or linen, to clean the soleplate.

AUTO SHUT-OFF

Auto Shut-off is a safety mechanism to stop the soleplate from heating when the iron is plugged in and motionless. It does not turn the iron off.

- The automatic shut-off device will activate in the:
  - Upright position: After approximately 8 minutes
  - Horizontal position: After approximately 30 seconds
- When Auto Shut-off activates, the thermostat light will flash to indicate that the soleplate has stopped heating. Moving the iron will deactivate Auto Shut-off and the iron will reheat to the set temperature.

PREPARATION

- Check for textile care symbols (   ).
- Iron fabrics needing low temperatures  first, then those that need medium temperatures , and finish with those needing high temperatures .

TEMPERATURE SETTING GUIDE

Label marking

	cool – nylon, acrylics, polyester
	warm – wool, polyester mixtures
	hot – cotton, linen/denim
	do not iron

Dot setting

•
••
•••/max

**Note: If the instructions on the fabric label differ from this guide, follow the instructions on the label.**

FILLING

You may use the iron with tap-water, but if you live in a hard water area, you should use distilled water (not chemically descaled or softened water). If you buy distilled water, check that it's marketed as suitable for use in irons.

- Unplug the iron from the wall power outlet.
- Set the temperature control to minimum •.

- Set the steam control to .
- Hold the iron in a horizontal position.
- Open the water inlet cover.
- Pour water from the jug into the water inlet.
- Pour slowly, to let air in the reservoir escape, and to avoid an airlock.
- Do not fill past the **MAX** mark on the reservoir, or water may escape whilst in use.
- Close the water inlet cover.
- Wipe up any spillage.

## SWITCH ON

- Set the temperature control to minimum •.
- Set the steam control to .
- Sit the iron on its heel.
- Put the plug into a power socket (switch the socket on).
- Turn the temperature control to bring the setting you want next to the  mark – the temperature light will come on.
- When the iron reaches the temperature you set, the temperature light will go off. It will then cycle on and off as the thermostat operates to maintain the temperature.

## REDUCING TEMPERATURE

This takes longer, as the iron has to lose the heat it has built up, so be patient. It's best to organise your ironing so that you don't need to reduce the temperature.

## STEAM IRONING

- When steam ironing, you must set the temperature control at  or higher.
- If you don't, you will get water on your clothes, not steam.
- Set the steam control to the level you want,  = no steam,  = high steam.
- Wait until the ready light goes out, and then start ironing.

## SPRAY

Note: Water spotting affects some fabrics. Test it on a hidden part of the fabric.

- The spray works with dry or steam ironing, as long as there's water in the reservoir.
- Lift the iron off the fabric, and aim the spray nozzle at the fabric.
- Press the  button – you may have to press it 2 or 3 times to pump water through the system.

## BURST OF STEAM

- This works with dry or steam ironing, as long as there is water in the reservoir, and the temperature control dial is set above .
- Press the  button; it may need 2 or 3 presses to pump water through the system.
- Leave 4 seconds between bursts, to let the temperature recover.

## DRY IRONING

**Note: If you're going to be dry ironing for 20 minutes or more, empty the reservoir first, to avoid spontaneous bursts of steam.**

- Set the steam control to .
- Wait until the ready light goes out, and then start ironing.

## VERTICAL STEAMING

- Iron hanging clothes, hanging curtains, and furnished fabrics.
- Check that there is adequate ventilation behind the fabric; otherwise moisture may build up, causing mildew.
- Check that there is nothing behind the fabric that may be damaged by the steam.
- Check that pockets, turn-ups, and cuffs are empty.
- Set the temperature control to **MAX**, set the steam control to .
- Hold the iron just off the fabric, then press the  button.
- It may need 2 or 3 presses to pump water through the system.
- Leave 4 seconds between shots, to let the temperature build up.

## AFTER USE

- Set the temperature control to minimum .
- Set the steam control to .
- Unplug the iron.
- Hold the iron over a sink, and open the water inlet cover.
- Turn the iron upside down, and drain the reservoir.
- Sit the iron on its heel, and leave it to cool down completely.

**CAUTION: The water may be hot.**

- When it is cold, wipe off any moisture, and close the cover.
- Store it on its heel, to avoid corrosion and soleplate damage.

## SELF CLEAN

To prevent residues building up, use the  Self Clean button regularly, at least monthly in normal water areas, more often in hard water areas. You will require a sink or a large bowl to catch the water coming out of the soleplate.

- Fill the tank to the **MAX** level.
- Sit the iron on its heel.
- Plug the power cord into the wall power outlet, and switch it on.
- Turn the temperature control dial to **MAX**.
- Hold the iron over the basin or bowl, with the soleplate facing down.
- Press the  Self Clean button and hold, whilst gently moving the iron to and fro over the sink or bowl.

***CAUTION: Keep clear of the escaping water and steam.***

- Water and steam will wash any residues through the soleplate, and into the sink or bowl.
- Release the steam control when done.
- Empty the remaining water from the tank.
- Turn the temperature control dial to **MIN**, move the steam control to  no steam.
- Unplug the iron, and sit the iron on its heel to cool.
- When it is cold, wipe off any moisture.
- Store the iron on its heel, to avoid corrosion and damage to the soleplate.

**CLEANING**

- Unplug the iron when not in use, and before cleaning.
- Allow the iron to cool down completely before cleaning and storing away.
- Wipe outer surfaces with a damp cloth. If necessary, use a little dishwashing liquid.
- Remove spots, or burnt on fabrics, by ironing a damp cotton or linen cloth with the iron hot. Take care not to scratch the soleplate.
- Do not immerse the iron in water or any other liquid.
- Do not use harsh or abrasive cleaning agents, solvents or scourers on the soleplate as these will damage the surface coating.

**ANTI-SCALE**

- The anti-scale agent incorporated in the iron helps prevent the build-up of scale.
- Do not use a descaling solution, or you'll destroy the anti-scale agent.

## **IMPORTANT SAFEGUARDS**

When using electrical appliances, basic safety precautions should always be followed, including:

- 1.** To protect against electrical hazards, do not immerse the power cord, plug or iron in water or any other liquid.
- 2.** Do not use outdoors or in damp or moist areas.
- 3.** Do not touch hot surfaces, always use the appliance handles.
- 4.** This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- 5.** This appliance must be attended whilst plugged in.
- 6.** Ensure the iron is standing on its heel and with the soleplate clear of any surrounding objects when switching on.
- 7.** Ensure the iron is unplugged during filling and emptying.
- 8.** Always turn off and unplug from the wall power outlet when not in use.
- 9.** To avoid possible burns, ensure the appliance is off and has cooled before cleaning.
- 10.** To disconnect, turn off the wall power outlet, then grasp and pull the plug from the wall outlet. Never pull by the cord.
- 11.** Do not operate this appliance with a damaged cord/plug or after the appliance has been dropped, damaged or has malfunctioned in any manner. Contact Customer Service for examination, adjustment, repair or replacement.
- 12.** There are no user serviceable parts. If power cord is damaged, it must be replaced by the manufacturer or similarly qualified person in order to avoid a hazard.
- 13.** Do not use on an inclined or unstable surface.
- 14.** Keep the iron and the power cord away from the edge of tables or countertops and out of reach of children and infirm persons.
- 15.** Ensure the power cord does not present a tripping hazard.
- 16.** Do not place on or near any heat sources.
- 17.** Follow the instructions when cleaning this appliance.
- 18.** Do not use this appliance for other than its intended purpose.
- 19.** Do not leave the iron unattended when switched on or where it may be touched by children or infirm persons while it is still hot.
- 20.** This appliance is not a toy. Children should be supervised to ensure they do not play with the appliance.
- 21.** This appliance is not intended to be operated by means of an external timer or separate remote control system.
- 22.** For added safety, electrical appliances should be connected to a power outlet that is protected by a residual current device (RCD), also often referred to as a 'Safety Switch'. Your switchboard may already incorporate an RCD. If unsure, call an electrician for verification and fitting if necessary.

**SAVE THESE INSTRUCTIONS.**

**THIS APPLIANCE IS FOR HOUSEHOLD USE ONLY.**

**Notes:**

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
