

Q4 2024

This Season we will see a big focus on our Shave Groom category with our biggest launch being our Limitless X shavers.

Limitless X

Our closest, rotary shave ever*

This collection features the first of its kind, innovative SynX hybrid cutting system. This combines the power and speed of rotary with the closeness and comfort of foil. The individual flexing blades & PivotBall move to closely adapt to facial contours with PowerSense technology that responds to pressure and maintains speed for an optimal performance.

It is always of great interest to hear any comments you may have regarding our Personal Care business and I thank you for the ongoing support.

Kind Regards

SHAVING

Remington is a leading brand to offer both foil and rotary shavers*

Offering both is important because not all skin & hair types are the same and we know from research that comfort & sensitivity are important to your consumers. The below guide explains the differences between the two shaver types:

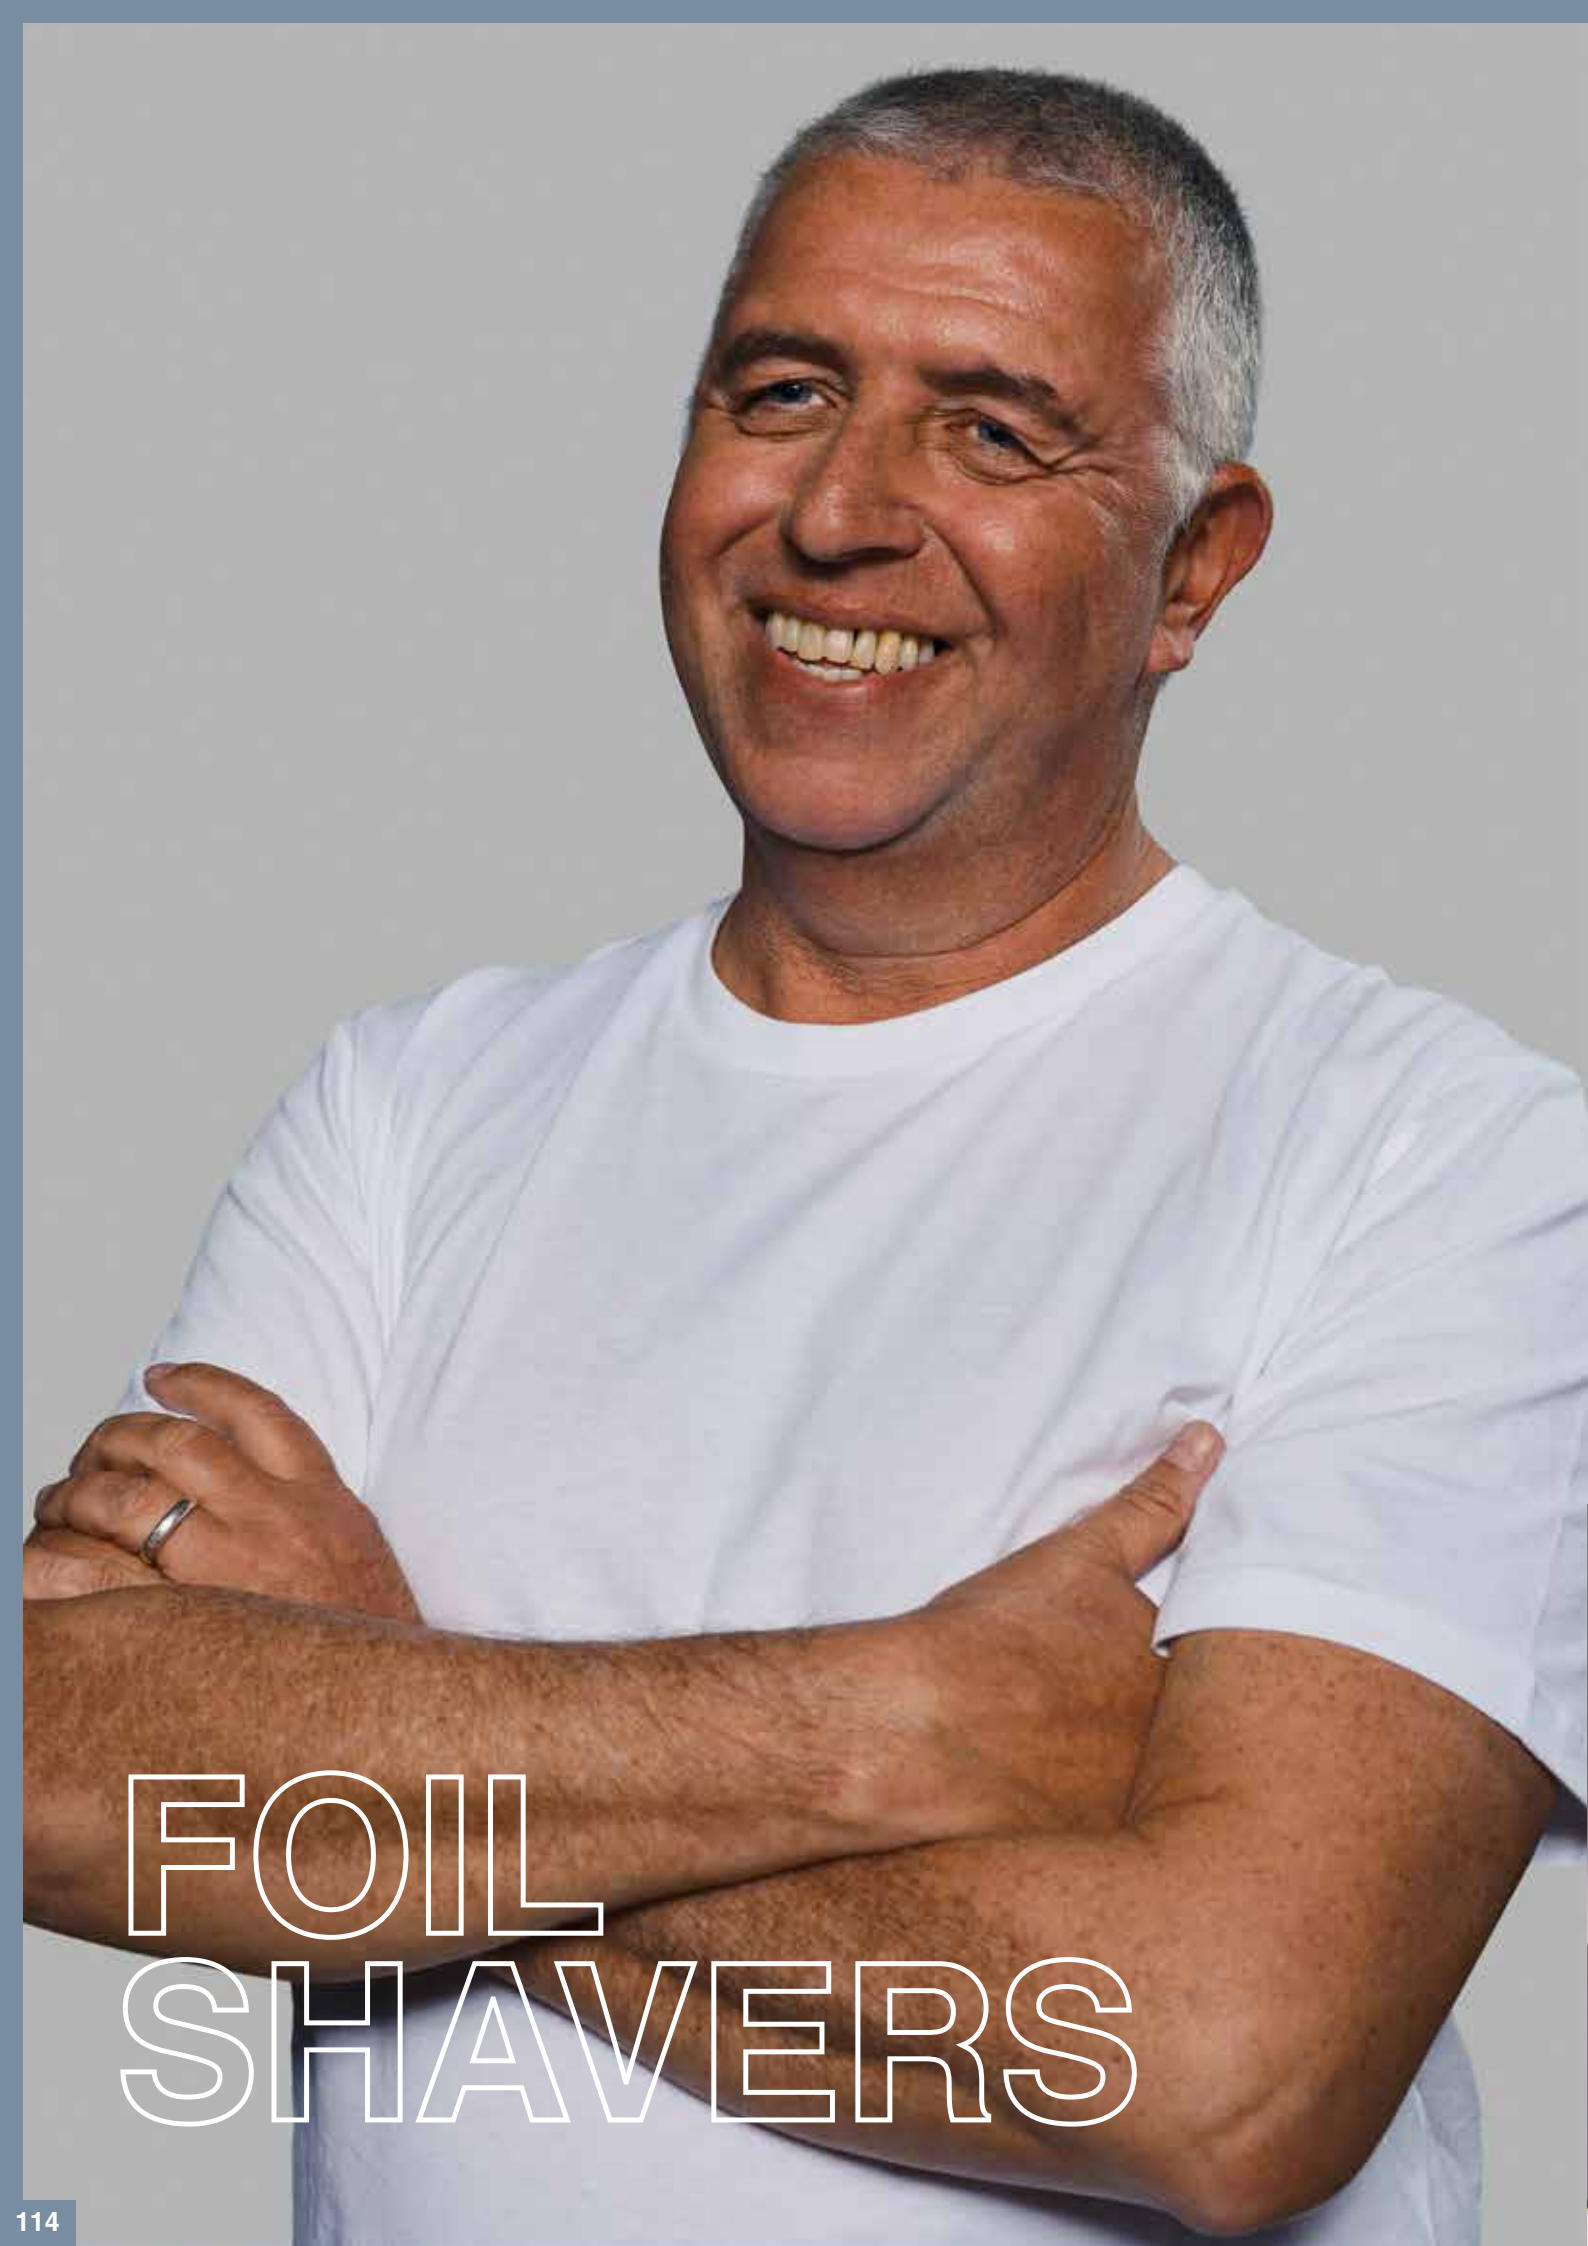

Rotary

- Up to 3 rotating blades
- Suitable for normal & less sensitive skin types
- Effective at cutting stronger stubble growth
- Easy to manoeuvre around neck & chin

Foil

- Linear blades often covered by foil mesh
- Kinder to sensitive skin
- Suitable for finer hair
- Close shave
- Everyday shaving
