## INSTRUCTIONS FOR USE

---

It is recommended that you use your new shaver daily for up to two weeks to allow time for your beard and skin to become accustomed to the new shaving system.

- Make sure your shaver is properly charged.
- Switch the shaver on by pressing the on/off switch.

### SHAVING

- Stretch the skin with your free hand so the hairs stand upright.
- Hold the shaving head so that the foils touch your face.
- Use short linear strokes.

### TRIMMING

- Slide up the trimmer release button to activate the trimmer.
- Hold the trimmer at a right angle to your skin.
- To retract the trimmer, push the top rear of the trimmer down until it locks under the trimmer release button.

### STUBBLE LOOK

Fit the stubble head guard to your shaver for a 3-day stubble look.

### TIPS FOR BEST RESULTS

- Always hold the shaver at right angles to the skin so that all foils are touching the skin with equal pressure.
- Use moderate to slow stroking movements. The use of short linear motions in stubborn areas may obtain a closer shave, especially along the neck and chin line.
- DO NOT press hard against the skin in order to avoid irritation and damage to the foil heads.

---

## CLEANING AND MAINTENANCE

---

Care for your appliance to ensure a long lasting performance. We recommend you clean your appliance after each use.

The easiest and most hygienic way to clean the appliance is by rinsing the appliance head after use with warm water.

1. Remove the shaver head (pull the head up and off FIG A).
  2. Tap out the excess hair shavings and rinse the foils under running water (Fig B, C).
  3. Do not clean the shaving foil with a brush.
  4. Replace the head assembly by placing the assembly on top of the hair pocket, press down and click into place.
- Lubricate the teeth of the trimmer every six months with a drop of sewing machine oil.

---

## REPLACING THE FOILS AND CUTTERS

---

- To ensure continued high quality performance from your shaver, we recommend the foils and cutters are replaced regularly.

### **SIGNS THAT YOUR FOIL/S AND CUTTER/S NEED REPLACING:**

- Irritation: as foils get worn, you may experience skin irritation.
- Pulling: as the cutters wear, your shave may not feel as close and you may feel the cutter pulling your hair.
- Wear through: you may notice that the cutters have worn through the foils.

### **TO REPLACE THE FOIL/CUTTERS**

- Remove the shaver head (pull the head up and off).
- Fit the new head assembly over the hair pocket and press down to click into place.

---

## BATTERY REMOVAL

---
